WHY BUY MAILORDER?

No sales tax—unless you live in California, free phone call, no parking, no hassles, quick delivery direct to your door. It couldn't get any easier.

IS IT IN STOCK?

When you place your order, your sales person will let you know when you can expect delivery. If we are out of an item and we expect to get more, we will backorder it for you and ship it automatically when it comes in — charging you only when we ship.

EASY WAYS TO ORDER

The choice is yours:
call 1-800-477-9283,
fax 1-805-546-0330, drop your
order in the mail, or buy on-
line at www.ccs.com. We
accept all major credit cards,
checks—even by phone,
money orders, or we can ship
C.O.D. All the details are inside
on the order form—
any questions, ask away.

DON'T LIKE THAT?

We do our best to try and not carry graphics and designs that may be offensive to anyone. However, skateboarding has always celebrated the individual and has supported non-mainstream ideas. Please keep this in mind when looking through the catalog. We have tried to provide many choices in each product category so you can find something appropriate for you. If you have any questions on a graphic or design, call our sales staff. We will be glad to help you.

SHIPPING

We try very hard to ship within 48 hours of receiving your order. So for some parts of the country, if you order on Monday, you could have your new stuff by the weekend. When you place your order ask your salesperson how long it takes to your town.

SATISFIED WITH YOUR PURCHASE?

We sure hope so. If for any reason you're not, call our customer service department at 1-800-477-9283 ... we'll take care of you.

Osiris G-Bag

Mobile Audio Transport System = The G-Bag from Osiris. Developed by the entire crew at Osiris, the G-Bag surpasses any and all bags in original concepts. It's a well constructed bag with multiple storage options and an urban sound system all-in-one. The bag comes ready for you to connect your own player of choice — CD, MD, tape, MP3, etc. to the built in amplifier (batteries for amp not included) that is connected to two built-in side mounted speakers. Turn the power on and have tunes while you skate, sit or stand.

Speakers: two super loud 8 watt, 8 ohm active speakers with durable metal screens and weather resistant speaker parts. They are connected to the amplifier by two cables that run through Velcro cable flags.

Amplifier: a 5 watt per stereo channel with loudness enhanced output has been mounted internally in a suspension pocket that keeps it from hitting the ground when set down. The amplifier can be run with 6 or 12 batteries depending on your preference or pocket money.

AC Adapter: two purposes. First, it is capable of charging rechargeable batteries (not supplied) and second, it powers the amplifier when the batteries are low or dead. Simply plug into your wall outlet for AC power and you're set.

A mini scion model CD case also comes with the purchase of your new G-Bag. Capable of carrying your CD player as well as 8 more discs, you can clip it to your belt or Velcro it to the shoulder strap for the ease of changing music without removing the bag.

Not just an original audio piece, the bag does not spare a single feature in regards to skateboarding. Able to carry a board with its large thermoplastic wear-resistant grip tape guards with a bottom weighted skateboard strap to adjust the load. Multiple accessory pockets with an 18 disc CD side pouch. Contour and padded shoulder straps with a sternum and waist straps provide excellent comfort with any movement.

The Osiris G-Bag with the urban sound system is built to be tough and handle heavy wear for a long time. However, the G-Bag comes with electronics and should be treated as you would any other electronics. **DO NOT THROW THE G-BAG AROUND, OR STEP ON THE SPEAKERS OR AMPLIFIER.** A warranty of 30 days against manufacturer's defects has been established by Osiris. This means that if anything breaks during this time period, it is not your fault (upon Osiris discretion). Improper wear and abuse will have to be covered by you, the now new owner of the G-Bag. Be sure to read the entire Owner's Manual before operating to understand all G-Bag specs. Color: Black. Size: 16.5" h x 13.5" w x 9" d.

XT Dirt Wheel Set
Use this dirt wheel set to make a monster skateboard. These large rubber treaded wheels will cruise over all kinds of stuff.

Set includes:
4 Dirt Wheels—112mm, directional rubber tread, nylon core. Durometer 55A.
2 Risers—1" rise with pyramid base.
1 Set of Mounting Hardware—2.5" silver bolts with lock nuts.

#WHXTA \$54.99
 Upgrade your complete — add \$27.05

Larger, wider decks and longboards work best (small street decks not recommended).

For size comparison only. Deck and trucks not included with this set.

CCS recommended setup:
Powell Hot Rod Flames 2 Wood with Independent 166mm trucks and 1 pair of 1/4" Dooks Short Stacks (in addition to the 1" risers included).

Longboards and Big & Soft Wheels

Longboards are good for cruising and transportation. Big and soft wheels complement longboards by rolling smooth and fast. For best results use extra risers and wider trucks. CCS recommends Independent 156mm, 166mm, or 215mm trucks. Choose a truck with an axle width close to your deck width. To build a complete, follow the instructions on the "Custom Complete Skateboard Order" form.

Trucks Silver \$16" each, Colored \$18" each (unless otherwise noted)

Trucks come in various heights and widths. Truck axle width should be closely matched to your deck width—or just a little wider. Truck heights only differ by about 1/4". If you use bigger wheels then you should either use higher trucks, risers, or both to avoid wheelbite (contact of wheel with deck).

3 STEP Custom Complete

Build a Custom Complete Step 3—Wheels.

Choose any wheel from pages SK20-21 & SK26-29. Write your choice on the "Custom Complete Skateboard Order" form. The complete price listed under each deck includes premium parts, any \$16.99 truck and any \$5.99 wheel. You can upgrade your complete with Big & Soft Wheels, or XT Dirt Wheels on page SK19, or any of the nine wheels with the symbol on these pages. Next go to Step 4—Parts Packages—on page SK30 OR separate included parts—on page SK31 & separate upgrade parts—on page SK32.

Wheels \$5.99 each (unless otherwise noted)

There are two things to consider when choosing a wheel: the size and the hardness. The size is the diameter (height) measured in millimeters. The hardness is measured using the "A" durometer scale. The higher the number, the harder the wheel... the lower, the softer. For more information on the "D" and "B" scale durometers visit us at ccs.com. Most of our wheels are good for street, ramp, and technical skateboarding. For cruising, look for big and soft wheels on page SK19.

Can you remember all the way back to last year? Fresh powder days, carving steep terrain, challenging the pipe, or hiking the backcountry with a few friends? The horizon is upon us, mountains have gone white, four-wheel drive is installed and season passes have been purchased. But there's something missing . . . Gear. CCS brings to your mailbox some of the best snowboards, boots, bindings, clothing and accessories available on the planet. Brands like Forum, M3, Option, World, Four Square, Planet Earth, Special Blend, DC, 32, Dragon and many more are packed into our Holiday catalog. Ride safe, smart and to the best of your own ability, but by all means, have fun.

CCS is committed to doing you right. If you have any questions about your order, before or after you receive it, ask away.

1. SPONSORS:

Flip, Axion, Volcom, Fury, Speed Demons, Ricta, TSG, Diakka, Oakley, and CCS . . . I think that's about it.

2. YEARS SKATING:

14 years

3. HOW WAS EUROPE?

I just came back from Paris. I won a contest . . . it was the Cup Du Mond or whatever . . . something like that. That was pretty cool.

4. WHAT'S NEW?

We just finished the new Digital Skateboarding Video 3 with Chad Muska and Chad Fernandez, Matt Pailles . . . there's a bunch of stuff in there . . . it came out super good.

5. WHAT ARE YOUR PLANS?

Just skate around where I live, and probably skate the Vans Triple Crown . . . see how that goes, and then the season's over . . . just chill and learn new tricks.

6. WHAT SHOULD PEOPLE KNOW ABOUT YOU THAT THEY MIGHT NOT EXPECT?

That's a tough one . . . nothing in particular . . . I just love skateboarding and every type of skating is fun for me . . . street, pool, ditches, it's all fun for me . . . that's how most people should look at skating . . . there's whole cities out there to skate.

7. WHAT GETS YOU AMPED?

Just skating with my friends . . . seeing people skate really hard . . . seeing people hang on to stuff that they shouldn't make . . . sketchily made tricks. Also seeing people do stuff perfect. Seeing people going for it real aggressive gets me amped.

8. WHERE DO YOU SEE YOURSELF 10 YEARS FROM NOW?

10 years from now? I don't know where I'll be . . . probably skating. Maybe back home in Denmark. I don't know, we'll see. I've always been the type of person who lives life day to day, week to week. I don't make plans for more than a month in advance.

9. WHAT'S THE BEST THING ABOUT SKATEBOARDING?

Progression . . . it keeps you wanting to skate. It makes you happy at the end of the day when you learn something new and push the limits. It's fun to do all the stuff you can already do, but it's a whole other feeling if you don't know if you are really going to make it.

10. ANY ADVICE FOR THE KIDS OUT THERE?

Keep your heads on straight, and progress with your friends. It's fun but don't be too serious about "I'm better than this guy" or "I'm better than you are." Keep it that way. Being good is something that comes with time. Just put time into it, and it will come slowly.
